SUMMARY

AI Product Engineer with strong expertise in building and deploying AI-powered products from concept to production. Proven ability to translate user requirements into technical solutions, develop AI features, and drive product strategy. Experienced in fast-paced startup environments with end-to-end ownership of product development, stakeholder collaboration, and cross-functional leadership.

TECHNICAL SKILLS

AI Product Development: Product Strategy, User Research, MVP Development, A/B Testing, AI Agents, Feature Prioritization

AI/ML Integration: RAG Systems, Computer Vision, OCR/OMR Pipelines, LLM Integration, Chatbots, Vector Databases

Frontend & UX: React, TypeScript, UX Design, Responsive Design, User Flows, Wireframing

Backend Systems: Python, FastAPI, API Design, Microservices, PostgreSQL, MongoDB, Docker, Cloud (GCP/AWS)

EXPERIENCE

Founding Engineer | *Datavedam*

Oct 2025 – Present

- Designed and developed AI agent-based School ERP platform from concept to production with multiple integrated modules.
- Built RAG pipeline that scrapes CBSE circulars and converts them into vector embeddings for intelligent querying and decision support.
- Built OCR/OMR pipelines for document and exam processing with automated workflows, quality validation, and data extraction.
- Contributed to product strategy, feature prioritization, roadmap planning, and system design beyond traditional engineering.
- Collaborated with stakeholders to translate business requirements into technical solutions, product features, and user improvements.
- Architected multi-tenant systems supporting customization across projects, jurisdictions, and user needs with role-based access.

Business Analyst | *Purshotam Profiles Pvt. Ltd.*

Jan 2025 – July 2025

- Identified new business opportunities in the solar projects sector; prepared proposals and performance reports for client engagement.
- Collaborated with cross-functional teams to optimize sales processes, improve efficiency, and strengthen B2B client relationships.

Computer Vision Intern | *TechEagle Innovations Pvt. Ltd.*

Apr 2024 – May 2024

- Developed a CV-based drone system integrating YOLOv5 with real-time feedback control for stability, autonomous navigation, and obstacle avoidance.
- Designed an autonomous landing system in ROS/Gazebo using Python, OpenCV, and ArUco markers for precise coordinate-based landings.

IT Intern | *Sankalptaru Foundation*

Jan 2023 – Mar 2023

- Built predictive models using Python, Pandas, and scikit-learn for forecasting farm conditions; performed demand analysis with Matplotlib for agroforestry planning.

PROJECTS

Datavedam – AI Powered School ERP Platform | *Python, FastAPI, React, AI*

- Implemented AI agents (Welfare Agent, AI Copilot) for automated admin tasks with intelligent contextual assistance.
- Built QR-code admission workflow handling 1000+ enrollments; integrated APIs for end-to-end school automation.

Manufacturing Dispatch Management Portal | *React, FastAPI, PostgreSQL*

- Designed centralized web portal used by 15+ manufacturing plants for real-time dispatch management and GRN reconciliation.

Event Planner | *React, FastAPI, REST API, LLM*

- Built full-stack platform with integrated LLM-powered AI assistant for automated event descriptions and RSVP handling.

Handwritten Text to LaTeX Converter | *Python, OCR, Image Processing, ML*

- Built OCR + LLM pipeline to extract handwritten notes and generate accurate LaTeX documents with optimized math prompts.

EDUCATION

Christ University

Bengaluru, Karnataka

B.Tech. Computer Science & Engineering, Honors in AI & ML

2021 – 2025

Delhi Public School

Agra, Uttar Pradesh

Senior Secondary School (CBSE)

2019 – 2021
