SUMMARY

Founding Engineer with strong expertise in backend development, AI-driven systems, and scalable product architecture. Experienced in building end-to-end platforms in fast-paced startup environments, with a focus on automation, data systems, and real-time applications. Proficient in Python, FastAPI, Docker, and cloud-based deployments, with a proven ability to translate business needs into impactful technical solutions.

TECHNICAL SKILLS

Product & Architecture: Full-stack Architecture, MVP Development, Product Strategy, System Design, Agile Development

AI/ML Integration: AI Agents, RAG Systems, Computer Vision, OCR/OMR Pipelines, LLM Integration, Vector Databases

Backend & Infrastructure: Python, FastAPI, Node.js, Microservices, API Design, PostgreSQL, MongoDB, Redis, Cloud (GCP/AWS)

Tools & Frontend: Docker, Git, Linux, CI/CD, React, TypeScript, Tailwind CSS, UX Design

EXPERIENCE

Founding Engineer | *Datavedam*

Oct 2025 – Present

- Built and scaled a multi-product AI-driven platform from the ground up, including chatbot systems, automation tools, and data-driven applications serving educational institutions.
- Designed scalable backend services using Python (FastAPI) and integrated APIs for automation, analytics, and communication workflows across the platform.
- Led development of AI-powered solutions for government schemes and business workflows with intelligent automation and real-time data processing.
- Architected multi-tenant systems with jurisdiction-based data handling, modular configurations, and role-based access control.
- Managed DevOps workflows using Docker and cloud infrastructure, ensuring smooth CI/CD pipelines and zero-downtime deployments at scale.

Business Analyst | *Purshotam Profiles Pvt. Ltd.*

Jan 2025 – July 2025

- Identified new business opportunities in the solar projects sector; prepared client-facing proposals and performance reports contributing to 15% client acquisition growth.
- Collaborated with cross-functional teams to optimize sales processes and strengthen B2B client relationships across multiple verticals.

Computer Vision Intern | *TechEagle Innovations Pvt. Ltd.*

Apr 2024 – May 2024

- Developed a CV-based drone system integrating YOLOv5 with real-time feedback control for stability, autonomous navigation, and obstacle avoidance.
- Designed an autonomous landing system in ROS/Gazebo using Python, OpenCV, and ArUco markers for precise coordinate-based landings.

IT Intern | *Sankalptaru Foundation*

Jan 2023 – Mar 2023

- Built predictive models using Python, Pandas, and scikit-learn for forecasting farm conditions; performed demand analysis with Matplotlib for agroforestry planning.

PROJECTS

Datavedam – AI Powered School ERP Platform | *Python, FastAPI, React, Docker*

- Implemented AI agents (Welfare Agent, AI Copilot) for automated admin tasks; built RAG pipeline for CBSE circulars with vector embeddings for intelligent querying.
- Built OCR/OMR pipelines for document and exam processing; developed QR-code based admission workflow handling 1000+ student enrollments.

Manufacturing Dispatch Management Portal | *React, FastAPI, PostgreSQL*

- Designed centralized web portal used by 15+ manufacturing plants across India for real-time dispatch management, logistics tracking, and GRN reconciliation.

Event Planner | *React, FastAPI, REST API, LLM*

- Built full-stack event management platform with integrated LLM-powered AI assistant for automated event descriptions and RSVP handling.

EDUCATION

Christ University

B.Tech. Computer Science & Engineering, Honors in AI & ML

Bengaluru, Karnataka

2021 – 2025

Delhi Public School

Senior Secondary School (CBSE)

Agra, Uttar Pradesh

2019 – 2021
